

There will be three more county timber sales offered on October 21, 2013 to sell timber on county land that was burned this past summer. The salvage sales may bring significant revenue back to the county in addition to the recent sale that went for about \$275,000.

The Timber Advisory Committee will meet October 3, 2013 at 7:30 AM at Elmers Restaurant to discuss county land that is managed by Josephine County Forestry Department. Vic Harris, Josephine County Forester, should be there and Simon Hare will be there as Josephine County Commissioner representing the Board of County Commissioners. The timber advisory committee has made recommendations for completion of an inventory on all county owned timber lands and harvest proceeds are requested to be directed to public safety.

Jim Frick, Captain of Timber Committee for SOS
